

Warship Warfare

By: Curtis Motes

Objective/ Premise

- You, a veteran tank driver, are being ambushed by an enemy warship. You must dodge its lasers and shoot it down as quickly as possible
- Collect coins for extra points

Procedure of Play

- 'w' – move Up
- 's' – move Down
- 'a' – move Left
- 'd' – move Right
- 'f' – fire missile

Players can move on sand and grass tiles, but cannot pass through stone walls. However, he/she can shoot through them, as can the warship.

The warship is flying above you; you can go under it.

Avoid being hit by enemy laser fire

Rules of Play

- Gain points by collecting coins (2500) and successfully hitting the warship (2000). The warship has 15 health. Hitting it with a missile does 1 health damage. The player starts with 0 points and 3 lives. Players will lose a life if they are hit by enemy lasers. Player score constantly decreases until the game ends. The game ends when the player runs out of lives or defeats the warship. The game will end with a black screen displaying the result and player score.
